Importance: Normal
Subject: Note to self re. Dan Todd meeting

I spoke to Dan Todd after Marilyn's conversation with Senator Hatch. Senator hatch asked Marilyn to 'fix' the Myriad payment issue. Marilyn asked me to follow-up with his staff on what they see as potential next steps.

I indicated to Dan:

- 1) Our review of the situation is market sensitive and I couldn't discuss our current option analysis with him.
- 2) Dan indicated that he was most concerned about process and that Myriad should be given an opportunity to comment on the new process.
- 3) I indicated that we are still reviewing our options and that we would be back in touch when our review is complete.
