I am a self motivator and I have faced many challenges in my life . Education is important for me but I don't have much to go on with due to my humbly unwealthy pass of my poor parents who just couldn't afford it. Nevertheless, that didn't stop me from getting where I am in this industry to say proudly that I can achieve with just pure determination and perseverance. The challenges I have faced is worth reckoning with and I have always come on top above the rest of the competition. If given a chance I have always pushed myself to do my best where an opportunity strikes and you will be assured that I aim to get the job and get it done properly . My motivation and persistent hard work is the key and I exercise my own beliefs to achieve greater heights with the utmost respect of my peers, predecessors and employers.

ANALYSIS

Having been in the Light Sound & AV Integration Company for so long, I belief my added advantge would be my expertise in marketing and Project Managing any AV setup where I go indepth into the preparation and total system solution. From handling a simple AV managed switch to getting down and dirty doing Riggings for Light & Sound Systems are something I have been doing all my life.

Today, I would like to give you that oppourtunity and take advantage of my expertise to bring future projects to the next Mellinium with a different mindset and most updated methods of Integration and installations.

Thank you for your time
